PROFESSIONAL SUMMARY

Detail-oriented and results-driven Full-Stack Developer with strong skills in HTML, CSS, JavaScript, and Django. Experienced in designing responsive, user-friendly web interfaces and building scalable backend systems using Django and PostgreSQL. Skilled in developing clean UI components, integrating third-party APIs, and applying modern web development standards. Adept at working in agile environments and collaborating across teams to deliver high-quality web applications from end to end.

HIGHLIGHTS OF SKILLS AND QUALIFICATIONS

- **Frontend:** HTML, CSS, JavaScript, React.js, Responsive Design
- **Backend:** Django, Node.js, REST APIs, PostgreSQL
- **Tools:** Git, GitHub, Docker, Stripe API, Swagger, CI/CD
- **Soft Skills:** Quick learner, Problem solving, Agile team collaboration

WORK EXPERIENCE

Nigeria Association of Computing Students (NACOS), FUNAAB — *Full Stack Developer*
Nov 2024 – June 2025

- Built and launched a fully functional eCommerce platform for over 2,000 university students using Django, PostgreSQL, and JavaScript.
- Designed and developed user authentication, order processing, and product management features.

- Designed and developed user authentication, order processing, and product management features.
- Implemented clean UI layouts, reusable components, and dynamic forms for seamless product browsing and checkout.

AgroTrack *— Full Stack Developer*
June 2024 – Sep 2024

- Built a farm produce inventory and supply tracking system for rural agribusinesses using Django and Vue.js.
- Designed user dashboards for farmers and suppliers to manage orders, track delivery status, and monitor stock levels.
- Developed REST APIs for mobile integration and streamlined logistics workflows.
- Implemented data validation, role-based access control, and responsive UI for seamless cross-device usage.

NEXT EdTech — *Full Stack Developer*
Feb 2024 – May 2024

- Developed an interactive EdTech web platform with course dashboards, instructor pages, and user portals using React and Django.
- Built backend logic for content management, user roles, and course enrollment using Django REST Framework.
- Integrated Stripe API for secure online payments and implemented input validation for form processing.
- Worked in agile sprints with designers and QA to refine features and improve UX, resulting in a 25% drop in user abandonment.

Seytech Agency —   *Full Stack Developer*

Sep 2023 – May 2024

- Collaborated with cross-functional teams to build scalable web applications for small businesses and eCommerce brands using Django and React.

- Designed and developed dynamic user interfaces, reusable React components, and integrated third-party APIs for extended functionality.

- Built RESTful APIs using Django REST Framework, implemented role-based access control, and optimized database queries using PostgreSQL.

- Led the redesign of the agency's portfolio site, improving page speed by 40% and enhancing mobile responsiveness.

- Mentored junior interns on Git workflows, backend development, and frontend styling using Tailwind CSS.

MadeInNigeriaFurniture —   *Web Developer*

June 2023 – Aug 2023

- Developed a fully responsive furniture e-commerce website optimized for mobile devices, improving load speed and mobile traffic retention by 35%.
- Implemented a secure real-time messaging system between buyers and sellers using WebSocket and session-based access control.
- Applied input sanitization and access checks to reduce risk of injection and unauthorized data exposure.
- Enhanced user experience through interactive product galleries, increasing average time on site by 20%.

Sammot Transport —   *Web Developer*

Jan 2023 – April 2023

- Designed and developed the company's official website to showcase transport and logistics services, increasing online visibility and client inquiries.
- Implemented service request forms, route listings, and real-time contact integrations using Django and JavaScript.
- Ensured mobile responsiveness and optimized loading speed for improved user experience.
- Managed ongoing updates, SEO optimization, and backend maintenance to support business growth and reliability.
